Avalon is a reclining modular sofa created with a generously sized backrest that has a new button effect inspired by the diamond-shaped buttoned backs of the 70s. This backrest, along with the design of the arms and the 12 cm leg, make the Avalon beautiful model with a great personality.

But perhaps its main feature is the comfort; it is difficult, if not impossible, to find a relax sofa in the market that offers greater comfort than Avalon, comfortable for people of all sizes and with the reclining mechanism open it almost becomes a large bed.
